“Shaping the entire Building Lifecycle”

The Nemetschek Group is a Germany based, globally operating software developer, focused on the AEC industry.

The corporate group is focused on four customer segments: Design, Build, Manage (AEC) & Media. Including 16 highly innovative, market-leading brands.

The brands offer digital solutions for the planning, building and operation of building and infrastructure projects, as well as for the media and entertainment industry.

Nemetschek Group Our Mission

We drive digital transformation in the AEC industry by empowering all users in every phase of the building lifecycle with open, best-in-class & customer-focused software solutions.*

*Architecture, Engineering, Construction

The Founder Georg Nemetschek

Prof. Nemetschek has founded our company in Munich, Germany in 1963 and is a member of the Supervisory Board.

He also established the non-profit foundations, supporting projects in the areas of education, science and research, arts and culture, the environment, international understanding and social projects.

Nemetschek Group What sets us apart

We are an advocate for **open industry standards** to ensure that our customers are always able to use the best software solutions for their needs.

By **generation, documentation, analysis and utilization of BIM***- data we unlock vast potentials in the planning, construction and operation of buildings, but also during alteration and demolition, as well as in regard to sustainability.

Our software helps to finish even complex building projects **efficiently on time, in high quality and within budget.**

The Nemetschek Group “Eco-System”

Market-leading & Customer-oriented

The unique structure of the Nemetschek Group, allows strong entrepreneurship and innovative power under one roof.

All 16 brands are...

- market leading in their disciplines.
- agile and work autonomous.
- close to the market and clients.
- best-in-class.

Experts for Experts – Anywhere at all times

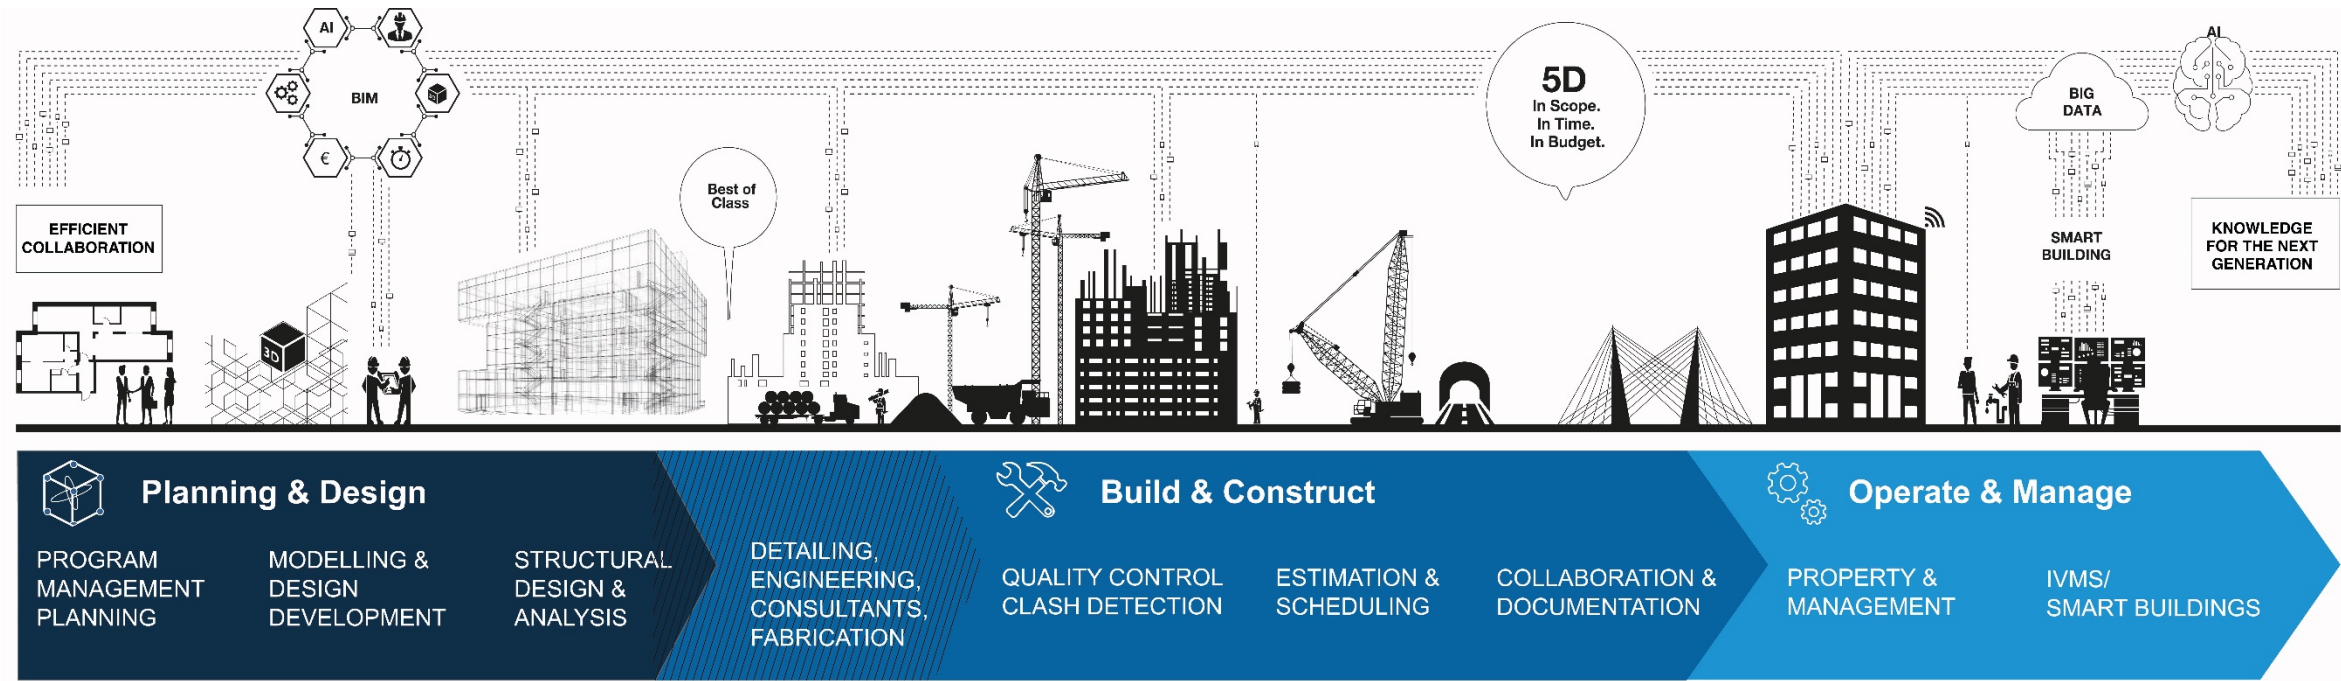

Our software developers are coming from the industry. Therefore, they know exactly the challenges and needs of our clients.

- Clients are our partners.
- We always go the extra mile when support is needed.
- Every project is different. So every client should be able to choose the best software solution which suites his needs best.
- This is why we advocate “open standards” and interoperability from day one on.

“True Innovation” – Always being one step ahead

25% of our revenue are re-invested in R&D to continuously drive innovation.

- Our innovations are delivering an immediate and direct added value for the evolving needs of our customers.
- 70% of the new solutions in our product updates, result from client feedback.
